Spencer Spoke at Jarrow and Irma Meetings

Monday, July 7th saw a public meeting held at Jarrow, addressed by Mr. H. E. Spencer who has represented Battle River for the past nine years. The chair was filled by the Rev. Mr. Taylor.

On the following day, Tuesday, he visited Irma, where he gave an outline of the work attempted and accomplished during the term of his stewardship at Ottawa. Here Mr. James Fenton, acted as chairman. Starting in with the subject of trade Mr. Spencer mentioned that generally speaking he had supported the various trade treaties, but not the one with Australia or New Zealand as they were made at the cost of agriculture. He reviewed the remodeling of the grain act and the changing of the personnel of the grain commission which his group had demanded. He also gave a short history of the retention of the Crows Nest Pass freight rates and showed that Alberta had benefited in six years to the extent of \$25,000,000. With regard to transportation, he stated his stand on the Hudson Bay Railway, the Peace River outlet, and the branch lines in the constituency. With regard to immigration, Mr. Spencer said he had been consistent for the past nine years in criticizing the propaganda policy of the government. This year however, was the first time that both the government and opposition forces had come to a similar opinion. In the past session the house was unanimous and these estimates were cut half a million. When speaking of finance Mr. Spencer spoke of the part he had taken in revision of the Bank Act in 1923, the investigation in the failure of the Home Bank in 1924 and the banking inquiry in 1928. Reference was made to Government inspection of Banks, also the long term loan act and possible intermediate credit. Political reforms at the House of Commons were referred to, especially the need of greater freedom of Government members to freely discuss problems on their merits. The fiscal policy, taxation and social legislation were all given attention by the speaker, as also were the subjects of Canadian status, world peace and national armaments. Mr. Spencer showed he had given the unemployment problem considerable study. He claimed it was brought on by a four fold agency, (1) Immigration, (2) Shortage of 1929 crop, (3) Drop in the stock market, and (4) the mechanization of industry, where men are rapidly transferring the load from man to machinery. Some important figures were given respecting National Health and Mr. Spencer claimed there was a federal responsibility which should be recognised. Other subjects he had supported in the House were: (1) Grants to technical Education, (2) Highways, (3) Divorce court for Ontario; (4) Cancellation of clearance papers for liquor going to the U.S.A.; (5) Investigation into Athabasca election scandal; (6) More mail contracts to be given the C.N.R.; and (7) An investigation into the Beauharnois Power scandal. At the close of each address, an opportunity was given for question to be asked. This was taken full advantage of at Irma. The meetings closed with the singing of the National Anthem.

Bruce Stampede Will be Held Friday, July 25

The Bruce Stampede and Sports will be held this year on Friday, July 25th. Posters are now out advertising the big event. A new arena, new corrals, better accommodation and faster service is assured all who attend.

There are good purses put up for the best rider, the best bucking horse, wild cow milking, steer riding, and other popular stampede stunts. There is also a program of horse races, and sports that will hold the attention of all.

The Vegreville Elks band will disperse music, an airplane from Chipman will take up passengers, hot dog and other refreshments stands will be there to cater to your wants.

The affair will wind up with a grand ball in the new hall. H. J. Frederick is president, and Henry Owens, secretary of the Bruce Stampede association to whom all communications should be sent. Hook 'em cow, let 'er buck, let's go.

NOTICE TO RATEPAYERS OF THE MUN. DIST. OF KINSLEA No. 424

Any person who has a complaint to make re Weeds will notify his Councillor, who will at once take the necessary action. The Weed Inspector will visit the place complained of and if in his opinion the case justifies it, he will issue a written notice to the occupant and if such notice is not acted upon in the specified time the Inspector will take immediate action against the offender.

The Council are very urgent in their desire that all ratepayers and occupants with them in this endeavour and they feel sure that if such co-operation is given, this system that they have evolved, will meet with success.
B. H. GREEN, Sec.-Treas.

49th BATTALION ASSOCIATION (Edmonton Regiment) 49th Annual Church Parade

The fourth annual church parade of the 49th Battalion Association will be held in Edmonton on Sunday, July 20th next. The parade will assemble on the Market Square at 10 A.M. and will move off precisely at 10:30 A.M. All ranks will "Fall in" in their former companies.

RECORD OIL PRODUCTION IN ALBERTA FIELDS

Oil production in Alberta reached a new high monthly total in March of this year when the output from all the fields reached a grand total of 109,360 barrels. Production in the Turner Valley, Red Coulee, and Wainwright fields was also the highest on record. The following comparative table prepared in the Department of the Interior from the reports of operators shows the production by grades in March, 1930, and during the same period last year:—

March, 1930: Naptha, 99,261 barrels; Light Crude, 8,515 barrels; Heavy Crude, 1,584 barrels; Total 109,360 barrels.
March, 1929: Naptha, 55,646 barrels; Light Crude, 5,248 barrels; Heavy Crude, 1,266 barrels; Total 62,060 barrels.

Meetings to be Addressed by J.W.G. Morrison, Conserva- tive Candidate, Battle River

Meetings to be held by J. W. G. Morrison, Conservative Candidate for the Federal Constituency of Battle River.

JARROW, Monday, July 14th at 2.30 P.M.
IRMA, Monday, July 14th, at 8 P.M.
FABYAN, Tuesday, July 15th at 2.30 P.M.
WAINWRIGHT, Tuesday, July 15th, at 8 P.M.
HEATH, Wednesday, July 16th, at 2.30 p.m.
EDGERTON, Wednesday, July 16th, at 8 P. M.
RIBSTONE, Thursday, July 17th, at 2.30 P.M.
CHAUVIN, Thursday, July 17th, at 8 P.M.
Questions pertaining to Federal problems invited. Everybody welcome.

IRMA WHEAT 52 INCHES HIGH

Tuesday night Mr. W. T. Barber, living a mile and a half N.E. of Irma brought in a sample of Red Bobs wheat which measures 52 inches and which has a head considerably larger than the average year. Mr. Barber has forty-five acres in this field and expects it to run between 40 and 50 bushels per acre. Thursday, Mr. Bert Long who lives in the same distance N.W. of Irma brought in a similar sample measuring the same length. With no hail or early frost the Irma district stands to produce a record crop as the rains which have been heavier than usual for the past month have assured plenty of moisture for the growing crops.

TENDERS WANTED

Tenders wanted for painting the Schoolhouse and Barn of Avonlea S. D. No. 3975 for further particulars, communicate with J. N. Carrington, Sec.-Treas.

TENDERS

Tenders will be received at the office of the Secretary Treasurer, Village of Irma, up to 6 P.M. Thursday, July 17th, 1930, for the delivering of 75 yards of Gravel for the Village streets, to be delivered at once and continuously.
Lowest or any tender not necessarily accepted.
Chas. Wilbraham, Sec.-Treas.

FACTS FOR PESSIMISTS (From the Victoria Times)

It would be an education to themselves if some of that small band of Canadians who seem to labor under an inferiority complex would make a few inquiries about the position this country occupies among the great trading nations of the world. Do they know, for instance, that Canada ships Potatoes to Brazil.
Macaroni to China.
Razors to Denmark.
Pure seed to Russia.
Jerseys to Buenos Ayres.
Jeans to Mississippi.
Muskrats to Germany.
Newspapers to Australia.
Alberta wool to Japan.
Onions to New Zealand.
Rages to Czechoslovakia.
Wood pulp to the Orient.
Beef and hams to Japan.
Honey to the Netherlands.
Jersey heifers to Shanghai.
Sewing machines to Uruguay.
Railway ties to the Sudan.
Soap to the Irish Free State.
Toilet soap to South America.
Foxes and lobsters to Sweden.
Motor cars to Iraq and Egypt.
Zinc and asbestos to Germany.
Rye to Norway; zinc to Japan.
Codfish to Portugal and Spain.
Potatoes to Argentina and Cuba.
Silver and artificial silk to India.
Codfish and copper wire to Brazil.
Plovers to Turkey; Lead to Finland.
Agricultural implements to Chile.
Wheat to India; Herring to China.
Pure bred cattle to South America.
Aluminum and wood pulp to Italy.
Oats and nickel to the Netherlands.
Rubber manufactures to Argentina.
Cheese and furniture to South Africa.
New Brunswick sardines to Australia.
Canadian wool to Japan mills for tests.

Live mink, salmon and furs to France
British Columbia whales' teeth to Japan.
Cottonwood to China; Hemlock to Japan.
British Columbia apples to many countries.
British Columbia cattle and hogs to Australia.
Manitoba purebred stock to New South Wales.

Edmonton Fair Is the Attraction for Next Week

All roads will lead to Edmonton the week of July 14th to 19th when the big annual Exhibition is on, in the Capital City.

The finest program of attractions ever presented to Exhibition patrons has been secured for this year's event, and the new midway shows—Morris & Castle—will doubtless attract thousands of patrons.

Some last hour changes and addition have been made to the general entertainment program, and these will include a basketball tournament and some athletic and track events.
A. E. Warren, Vice-President of the Canadian National Railways, Western Lines, will officially open the 52nd annual Edmonton Exhibition on Monday, July 14th. The gates will be open to the public on Monday at noon and the general programme will be varied from day to day. On Tuesday and Wednesday, the Cat Show will be held, with the Dog Show on Tuesday, Wednesday and Thursday. A canary and cage bird show will be held on Thursday and Friday, and in the horticultural department various cut flowers will be shown on stated days; the roses and peonies will be shown on Wednesday, and the annual Edmonton Exhibition on Monday, Tuesday, Wednesday and Thursday. The Provincial Government's Boys' Camp will be held on Thursday and Friday; the boys will live under canvas in the big camping ground adjoining the Edmonton Exhibition grounds, and an interesting and educational program is being planned to keep them busy.

The live stock judging, generally, commences on Tuesday morning. It is hoped that all the judging of school work, arts, women's work, etc., will be concluded before the opening of the Exhibition.

A 25c admission fee will be charged all day Monday, for adults. This is the one-half the usual rate.

The various days at the Edmonton Exhibition have been named as follows:

Monday—Official Opening, & Children's Day.
Tuesday—Farmer's Day.
Wednesday—Citizen's Day.
Thursday—Old Timer's Day.
Friday—Press Day.
Saturday—Midway Day.

SOLDIER SETTLER'S DEBT REDUCTION IS EXPLAINED

By an amendment to the Soldier Settlement Act passed at the session of parliament just closed, soldier settlers who have not abandoned their land and whose agreements with the Board have not been terminated, rescinded or assigned, are entitled to the following concessions and reductions:

1. A reduction of 30 per cent on their net indebtedness to the Board as at the 1st of October, 1929.
2. The Board will release any claim or lien it may have on any soldier settler's livestock. The releasing of title to stock does not carry with it any further reduction of, indebtedness other than the 30 per cent above mentioned.

At an early date all soldier settlers will receive a statement from the Board setting out their net indebtedness and this will show the reduction of 30 per cent. The net amount thus due after this reduction will be remitted over the balance of any period of his loan, and he will be notified what the annual payments will be.

A World Subject of Discussion

The whole civilized world is discussing one subject today.—Tariffs. And in those countries which are the more highly organized, where the standard of living is highest, where the most modern and efficient methods of production, both in agriculture and in industry, prevail, the discussion is most keen.

For over a year and a half the United States has been in the throes of a nation-wide struggle over the new Hawley-Smoot tariff, the effect of which is to raise duties against all other countries to a height never before attained.

In Great Britain, Lord Beaverbrook, supported by his fellow publisher, Lord Rothermere, is engaged in a great campaign of publicity with the object of swinging the British people into support of a new fiscal system, based on the idea of free trade within the Empire, or as near an approach to it as possible, coupled with tariffs against all foreign countries. Exporting Baldwin still maintains his stand in favor of what are termed "safeguarding" of industry duties, coupled with a referendum on the question of placing a tax on food supplies in order that a preference may be given to the overseas Dominions.

In France, in Germany, in Italy, and in other European countries feelings akin to bitterness have developed against the United States because of the higher duties that country has levied against the world. All these nations, heavy debtors to the United States, feel outraged that the only means whereby they can pay their war debts to the U.S., namely, by exports to that country, is thus largely closed to them. Talk of reprisals is general, and in a number of instances higher tariffs have been imposed, particularly on products and manufactured goods in which the United States is a large exporter.

The Commonwealth of Australia, finding itself over-burdened with an extremely heavy national debt, and in need of larger revenues, has raised its tariff to new heights, and in regard to certain articles has entirely prohibited their importation.

In Canada, the recent Budget of Hon. C. A. Dunning, imposing countervailing duties on a specified list of articles against the United States, raising other duties against that country, and increasing the scope of the preference accorded to Great Britain and other parts of the Empire, is now a daily household topic all over the Dominion, and the outstanding issue in the general election campaign now in progress.

Without presuming to offer any opinion on the relative merits of High Tariffs, Low Tariffs, or no Tariffs at all, because to do so would be to enter into the realm of partisan discussion, and such discussion is rightly barred in this column, the question may be asked: What is to be the outcome of this world tendency on the part of practically all nations to erect trade barriers one against the other, and each one against all others?

Certain facts must be recognized and admitted by all. It cannot be denied that Tariffs do engender hard feelings and suspicions between nations, and when such feelings develop, no matter what the cause, there is always great danger of the ensuing bitterness becoming gradually more intense, and the opposing peoples brought to a frame of mind where they are less ready to co-operate in other matters for the common good of all. In a word, international goodwill is placed in jeopardy, and a situation created where some little spark might easily start a mighty conflagration, another World War in fact.

But even should such a dire calamity not result, what is going to be the economic effect on the world, and on each separate nation, if one and all pursue the policy of erecting trade barriers each against the others? The logical end, of course, would be the complete cessation of all international trade. With each nation refusing to buy from other nations, or at least making it as difficult as possible to do so, it would inevitably follow that no nation could sell to any other nation, or to a very limited extent. This is a situation that must be faced, because it is looming up on the horizon in view of the economic and fiscal policies now under such wide discussion.

If nations decide not to buy largely, or at all from other nations, it follows, we repeat, that there will be no buying nations to which other nations can sell. Will this redound to the advantage of any nation? Take the United States as an example. If it refuses to buy from others, and those others in return refuse to buy from it, will the United States be better off? Can its own people consume the enormous output of its factories and fields? The answer, of course, is "No." Then the inevitable result is less production, which in turn means less employment, and decreased employment means decreased buying power, and that means a still further decrease in consumption, production, employment, buying power.

It may be further said that if other nations will not buy goods made in the United States, the manufacturers in that country will erect brick factories in foreign lands, and employ the people of those countries. Thus these foreign people will secure employment at the expense of the United States worker.

And if other countries follow the same policy and do likewise, how much better off will any one of them be than if they continued to raise those crops for which by nature they are best fitted to produce, or manufacture largely for world trade, and each distribute freely one to the other?

The need of the hour in all lands would appear to be sound thinking and sane consideration of basic economic principles, divorced from purely nationalistic desires and ambitions.

Keep Outdoors In Summer

Get the outdoor habit this summer. It improves both the health and the temper. Clothes can be mended on the porch, peas can be shelled and potatoes peeled out in the open air quite as efficiently as inside. You can even take your lunch tray outside with a few extra steps and eat de luxe in the great outdoors.

Not only has King George of England worn the same crown for 20 years, but it seems he hasn't had it rebuffed or the band changed.

You probably think you have made your last worthless investment, but you haven't.

Had Free Ocean Trip

Arthur Papp wanted to see Paris, and with only eight dollars the 16-year-old youth boarded a huge liner and mingled with the passengers for three days without being discovered. On discovery, however, he was allowed to run free until the ship docked in England. Here he was put in jail until a ship set out for the U.S. He was placed on board, made the voyage over safely, and landed here with 25 cents of his original capital.

Prepared For Emergency

Jones called upon his friend Smith, and found him sitting in his shed with the much-mended inner tube of his bicycle over his knee.

"Puncture, Smith?" he asked sympathetically. The other shook his head.

"Then why are you covering the tube with all those patches?" inquired Jones wonderingly.

"Well, you see," explained Smith, "when I do get a puncture I'll be already mended."

Galileo's first telescope was made of a piece of pipe organ with a lens at either end.

Farm Loans Act

Six Canadian Provinces Have Taken Advantage Of The Act

Six of the provinces of Canada—Nova Scotia, New Brunswick, Quebec, Manitoba, Alberta and British Columbia—have taken advantage of the Farm Loan Act of Canada, securing long term mortgage credit. At the end of March loans to the amount of \$4,351,000 had been approved. Each borrower becomes a shareholder in company with the Canadian and Provincial Governments and receives his share of the profits. Loans are made on first mortgages on farm lands and farm buildings.

A REAL NERVE TONIC

Is a Bountiful Supply Of Rich Health-Giving Blood

Sufferers from nervous debility and themselves tired, low-spirited and unable to keep their minds on anything. They are totally unfit to perform their everyday duties.

Doctors of the nerves with sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. To secure this rich, red blood Dr. Williams' Pink Pills should be taken. Enriching and purifying the blood is their whole mission. Concerning them Mrs. Albert Bentley Bancroft, Ont., writes: "Two years ago I was a complete wreck; in bed for seven months; extremely nervous had no color. Nothing I tried seemed to help me till I began Dr. Williams' Pink Pills. My condition at once improved and today I am well and able for anything without fatigue or trouble."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan Appointment

P. C. Ward Now Chief Clerk Of Natural Resources Department

Official announcement was made recently of the appointment of P. C. Ward, Regina, as chief clerk in the Provincial Department of Natural Resources. Mr. Ward is also a member of the public service commission, and in the absence of P. H. Shelton, is acting chairman of that body. Previous to the appointment of the commission, Mr. Ward was civil service commissioner for a number of years.

Use Miller's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of the stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are speedily evacuated without other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.

Saskatchewan Pool Elevators

Handled 87 Per Cent. Of All Pool Grains Delivered In Province

During the present crop year Saskatchewan Pool Elevators Limited have handled 87.2 per cent. of all pool grain delivered in the province, according to an official report. This is the highest percentage that the organization has handled in any crop year to date.

Red Clover Seed Record

The production of red clover seed in Canada, in 1925, was the largest in the past quarter of a century. One of the most important leguminous crops; red clover for successful growing depends on hardy acclimated seed. Special attention is being paid by the Seed Branch of the Dominion Department of Agriculture to the growing of registered red clover seed.

The Terror Of Asthma comes like a thief in the night, with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and if the remedy be used persistently, the disease is put permanently to rest. Take no substitute.

Canada Sound Financially

Canada was described as the most sanely optimistic country he had ever been in by Sir William Letts, British automobile executive in an interview given at Toronto. He had visited the United States and the countries of Europe and had found Canada in what he believed to be healthier financial condition than any of the others.

Weather Service For Fliers

Conditions Made Much Safer For Adventurous Air Explorers

The non-stop planes which may leave Europe to try the hitherto almost certain death westward flight across the North Atlantic, have a new aid. This is new weather service, started in May, 1930, that plans the first complete ocean forecasting. In its files are pictures that explain better than words, why but one west-bound non-stop plane has crossed the North Atlantic, while eight have made it in the other direction.

Take, for illustration, one of these pictures, the weather map of the North Atlantic, on November 25 last, made during preliminary organization. The lines that mark the course of the winds trace a vast shape, that looks like a devil fish filling the ocean from Newfoundland to Ireland.

Its eyes are two whirling cyclones set one-third the distance out from each shore. Its tentacles swing southward to the Azores, and north nearly to Greenland. On it the thing which swallowed the westbound flier without trace, from the French coast, Nungesser, to Princess Loewenstein-Wertheim, and the Hon. Elsie Mackay, is apparent. It is a steady rush of air toward Europe.

Though from locality to locality, its direction changes, yet its average is always into the teeth of the west-bound plane, with a range from 10 miles an hour up to raging gales. It flows like the Gulf Stream, centering above the stream, though immensely wider, and subject to swings of nearly 1,000 miles. Westbound planes bucking even the mildest of these currents, were cut down 10 miles an hour, and often far more. These figures must be multiplied by two to obtain the actual disadvantage.

The effect gives the westbound flier a far wider ocean to cross, as if the American coastline were pushed back nearly to Chicago. The new ocean forecasting can warn of tempests that sometimes develop from nothing even during the few hours a crossing plane takes.

Alberta Gas Fields

Three Hundred Million Cubic Feet Wasted Daily, Being Burned In The Air

Oil and gas wells drilled in Alberta fields have combined gas capacity of approximately 360,000,000 cubic feet daily. This figure includes wells which have been capped.

This figure is made up as follows: Turner Valley: 300,000,000 cubic feet wasted daily, burned in the air. From 15,000,000 to 20,000,000 cubic feet used daily.

Rogers' Imperial Well: This capped well is believed capable of producing 60,000,000 cubic feet daily.

Burdett and Bow Island: This field, with 19 wells capped, is believed capable of producing between 50,000,000 and 60,000,000 cubic feet daily.

Medicine Hat Field: This field produces 4,000,000 cubic feet daily, practically all of which is used.

Viking field, near Edmonton: This field has a capacity of 75,000,000 cubic feet daily. There are 21 wells.

Kinsella field: This field has a capacity of about 30,000,000 cubic feet daily.

Wainwright, Ribstone and other small gasers throughout the province have a combined capacity of about 25,000,000 cubic feet daily.

Books Can Be Decorative

The decorative use of books is greatly overlooked in many homes. Books, aside from being a concrete evidence of alert mental life going on in a home, can be capitalized into becoming an important part of an interior decorating plan. If you have much space, walls of low book shelves are extremely satisfactory, to balance a fireplace or an overstuffed davenport, table and lamp unit.

The first sheet of paper is stated to have been made from the bark of a mulberry tree in the year 75.

Mexico's metal production is increasing.

Alluring Advertising

Poster Issued By Light Dragons In 1901 Made Attractive Reading

Have the military authorities lost the art of attractive advertisement. Most people think that the twentieth century is much superior to the nineteenth so far as advertising is concerned, but there are no modern recruiting posters that can compare with a notice issued on behalf of the Light Dragons in 1901, and which was referred to by the Secretary of State for War recently. "You will be mounted," this notice informed potential recruits, "on the finest horses in the world, with superb clothing and the richest accoutrements. Your society is courted; you are admired by the fair." It went on to hold out the alluring prospect of marriage with "a buxom widow" or "a rich heiress," which rendered the Light Dragon's situation "truly enviable and desirable."

(By Betty Barclay)

SUMMER SALAD-COMBINATIONS

Here are a couple of simple recipes for summer salads, that should come in handy at this time. Liberal servings of such salads will enable you to eat less of the heavy foods, and thus put yourself in better position to stand the heat of summer.

Cherry Delight: Arrange three or four large orange sections around edge of a lettuce cup made by cutting a small head of lettuce in two and scooping center from one half. Fill center of cup with stoned cherries. Serve with mayonnaise or boiled dressing.

Orange and Strawberry: For each serving use one slice pineapple, quartered; and three or four orange slices, halved. Garnish with four large, ripe, unhalved strawberries. Top with a marshmallow half.

A DELICACY WITH FRESH BERRIES

1 package vanilla junket.
1 pint milk.
Strawberries.
Powdered sugar.

Make junket according to directions on package. When ready to serve, add berries with powdered sugar and all up the glasses. Fruits like oranges, pineapple and strawberries should not be put into the milk when making junket, as the fruit causes it to whey. Crushed and sweetened, these fruits make tasty toppings.

Blackberries or raspberries may be put into the desert, also canned or preserved berries, peaches or other fruits.

Minard's Liniment gives quick relief.

Rivals Boy's Pocket

Handbags carried by women are beginning to rival the small boy's pocket for variety of contents. One bag examined recently contained a handkerchief, bundle of letters, diary, mirror, comb, purse, note-case, stocking-mending outfit, cigarette case, lighter, powder-case, lipstick, keys, patterns of cloth and a shoe-lace.

Ceremonies Were Simple

Memorable Fete In Iceland Opened By King Christian

Christian, King of Iceland, on June 26, opened the 1926 session of the Icelandic Parliament, halting at the very spot where one thousand years ago this oldest parliament in the world first was convened.

King Christian stood upon a huge rock in the middle of the plain of Thingvall, where Grim Goat-head, the law-giver, in ancient days, recited from memory the entire code of Icelandic law.

The ceremonies were simple as of old, so simple as to obtain an almost religious aspect.

The broad plain, bounded on the south by a great lake, on the north by rugged snow-capped mountains, on the east and west by two great fissures of volcanic formation cut before the dawn of history, was dotted with many thousands of people who had come from far corners of the earth.

Newest Novelty In Paris

Tea Tables Are Now Covered With Map-Cloths

The French need no longer be identified as a race which doesn't know its geography. The newest novelties are map-cloths to cover the tea table. On them are maps embroidered in colors. You can sip tea over Ireland and the Isle of Man, or over the old Barbary States, with all the rivers and mountains named. These novel tea-cloths are in parchment shade which makes them look like leaves out of a real atlas.

"I have nothing but praise for the sermon," said the Scotchman. And he proved it.

For Blisters and Boils—Minard's Liniment.

The word "budget" is an old English word meaning a leather wallet or purse.

I NO LONGER SUFFER WITH
writes Mr. M. McArthur: "FORPID IVERS
Thousands say constipation, liver trouble, indigestion, gas and overwork
with 'Para-Sani'—I never feel better. Get 'Para-Sani' from
your druggist today."

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

The Bacon Export Market Neglected As Canadian Hog Industry Fails To Expand

Exports of bacon from Canada to Great Britain are no greater today than they were 37 years ago. This means that while our hog industry has not ceased to grow, the growth in the number of hogs produced annually has not been enough to take care of the needs of both export and domestic markets.

The chart on this page will help to make the conditions clear at a glance. The upper line shows the rise and fall of our bacon exports to the British market since 1893. It tells its own story of a rapid rise until 1900, a slight recession then and a rise again to 1904, with then a steady drop until 1914 we were almost back at the 1893 level, which may be taken as the end of the first period. Then followed the enormous wartime increment until 1921, followed by a rapid downward trend until today we are again back at the same level as 1893.

tion of the now vast tourist trade in Canada. If this were properly given weight the per capita figure reported might be considerably diminished. Yet whatever increase has taken place in consumption over the period as a whole it is evident that provision has only been made for one of the two Canadian markets. The vast export possibilities in Great Britain have not been neglected in the full sense of the term, but no strong co-ordinated effort, by producers' has been made to turn it to proper account. Canadian packers have striven unrelentingly for well over a quarter of a century to hold that market, first against the competition of Irish and Danish bacon shippers and, latterly, against Dutch, Swedish, Baltic and Polish competitors. But without hogs no bacon trade can be kept going. And the number of hogs kept on Canadian farms have been

An Empire Service

Duke Of Connaught Advises British Youths To Go To Canada

"There have probably been no greater openings at any time in the world for young men prepared to work than those presented by Canada today," declared the Duke of Connaught, formerly governor-general of Canada, in his address at Wellington College, Crowther, recently. There was an enormous demand for qualified engineers and chemists and if Britain were able to keep up sending a steady stream of trained men to the dominions it would be doing a great Empire service.

Busy New York

In New York City, a child is born every four minutes. Nine million persons scramble daily for subway seats. Fourteen persons are married every hour. On the average for a year, 23 new buildings are put up every day and six tons down. New Yorkers and their guests eat 7,000,000 eggs a day. And how the human family loves amusement! There are 800 theatres in New York City.

Planning Sheep Survey

Dominion Government Will Make Complete Study Of Western Conditions

An economic survey of sheep ranching in Saskatchewan, Alberta, and British Columbia will be undertaken this summer by the Dominion Department of Agriculture. Dr. J. Grisdale, Deputy Minister of Agriculture, has announced. The work will be under the direction of the agricultural economics branch in co-operation with the Dominion experimental farms. Preliminary arrangements for the survey are practically completed and field work will get under way in the near future.

A complete study of conditions in the sheep ranching industry is contemplated. This is the beginning of a programme of research work in agricultural economics on behalf of the livestock industry.

It is anticipated that between 150 and 200 sheep ranches will be visited in the three provinces, and at these complete information with respect to all phases of operation will be sought. The economic survey will seek to establish facts as to the profitability of sheep ranching as carried on in different regions.

Extraction Of Gasoline From Tar Sands Of Alberta Is Now An Accomplished Fact

Fresh Air For Health

Thousands Of City Men Make Gardens For Exercise As Well As Pleasure

Funny old world, isn't it? Hundreds of thousands of farm boys going to the city to get wealth, with hundreds of thousands of city men digging in little back yards to retain health.

The farm boy wants city life, while the city man finds no greater pleasure nor no better exercise than he gets by turning his city property as nearly into a farm as possible.

He digs that little bare spot back of the garage. He hoes the soil at the side of the house. He cultivates as much of his back yard as his wife can spare from her wash lines, and as he digs and hoes and cultivates he gets the very kind of exercise he most needs. Truly there is health in the backyard, if one but seeks it.

By the utilization of natural gas, gasoline in almost unlimited quantities can be commercially produced from the tar sands in Northern Alberta. Announcement of this discovery was made by Dr. E. H. Boomer, University of Alberta, addressing the National Research Council.

The credit for a new method, which yields light oils suitable for the production of gasoline, goes to Dr. Boomer and Dr. A. K. Clark, also of the university. A semi-commercial plant is now in operation in the field, and results show that Western Canada, at least, shortly will be independent in the production of motor fuel.

Research in connection with tar sands has been conducted for several years under grants by the National Research Council and energetic study has produced striking results, it was revealed.

By the application of hydrogen, obtained from the enormous quantities of natural gas available in Alberta, Dr. Boomer has hydrogenated the tar and produced a light oil that readily cracks to produce gasoline. Dr. Clark and Dr. Boomer have been working for a considerable period on schemes to make tar sand and natural gas available for commercial consumption in transportation form. The first step in the process was to extract the tar from the tar sands, then by the introduction of natural gas into the combination a method has been found to produce a light oil from which gasoline can readily be manufactured.

Tar sands in northern Alberta were stated to be almost inexhaustible, while natural gas, with its important content of hydrogen, is also present in enormous quantities in the province.

The fact that a plant for the production of gasoline has already been set up and has established definite commercial possibilities, is regarded here as a favorite indication that gasoline from products that formerly went to waste is now beyond mere possibility, and promises the founding of an important industry.

Officials of the Natural Research Council are enthusiastic as to the possibilities of the new method, as far as Western Canada is concerned, and are agreed that with large plants and large production, gasoline from this source would eventually become a competitive factor on the markets of Eastern Canada.

Dr. H. M. Tory, president of the National Research Council, expressed his approval of the discovery made by Dr. Boomer and Dr. Clark. Dr. Tory said that the new method of providing gasoline from tar sands held great promise and pronounced it "the most significant development in this direction in several years." Considering the fact that semi-commercial production was already a fact, Dr. Tory said it might be expected that pronounced development would occur in a short time. Dr. Tory was not prepared to say to what extent gasoline produced by this means would invade Eastern Canada, but stated that such was not beyond the bounds of early possibility.

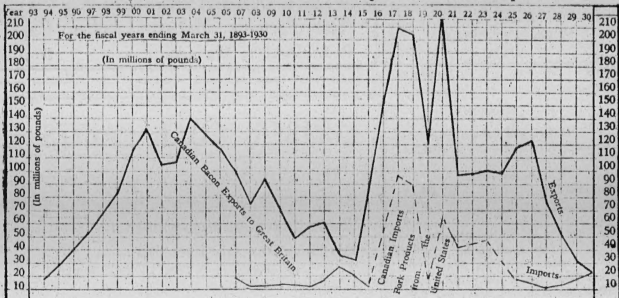

Experiments in an endeavor to utilize valuable materials in the tar sands and natural gas of the prairie provinces had been under way for some time, he said, but this was the most significant advance. The discovery had the value of rendering useful two of the most easily obtained products in that province through their combination.

Bird Sanctuaries

To assist in the protection of the breeding range of waterfowl in Western Canada, a number of bird sanctuaries and public shooting grounds—which serve a similar purpose by protecting marsh and lake habitat—have been reserved. This action in reserving these sanctuaries has been undertaken as a responsibility under the Migratory Bird Treaty with the United States.

A Comparison of Canadian Bacon Exports and Pork Imports

We are back at that stage—but worse. For now our exports, about 20 million pounds, are almost exactly balanced by our imports from the United States. This is seen from the lower line showing our imports since 1906.

That balance means that Canadian hog growers are producing just enough for the home market, almost exactly whatever for an export trade. In general, it may be said that the American imports are not re-exported. They are absorbed into the domestic trade, filling a gap that would otherwise be left in the home supplies by the absorption of the Canadian selects and bacons used in our export Wiltshire trade. To a less degree we seem to have developed the same trend as in Ireland, where the better grades of bacon are shipped to England and American bacon is imported for the domestic table.

In 1893, the year in which the chart records begin, Canada had a population of about five million people. The number of hogs then reported on farms was 1,734,000. In 1929, when our population was about ten million, our hog numbers on farms were set down as 3,352,000. That is a ratio of about 34 hogs to every hundred people in 1893, and of 43 hogs today. Forty years ago hogs were heavier than they are today, but the litter is probably larger today and marketing is done much earlier, that is, the turnover of livestock is faster, so that the total amount of pork produced may not be greatly different for the two periods. The per capita consumption in Canada, so far as the available records go, seems to have increased. An estimate of the Bureau of Statistics set the pre-war average at 60 pounds per person. In 1928 the per capita consumption of all pork was estimated to be 82 pounds—a figure arrived at by dividing the total production less net exports by the total permanent population. This does not seem to take into account the highly important temporary popula-

insufficient to supply more than one market.

The British market in bacon is most vital to the Canadian hog producer both with regard to actual size and in its trend. For the last three years the British importations have been: 1927, 948,528,000 pounds; 1928, 880,000,000 pounds; 1929, 927,584,000 pounds. Canada supplied in 1927, 336,000 pounds, or 6 per cent.; 1928, 34,384,000 pounds, or 3½ per cent.; and 1929, 22,288,000 pounds, or 2½ per cent. of the total. This year it is expected that our supply will drop below 2 per cent., or not be almost wiped out.

So much for the size; what of the trend? Take only after-war conditions. In 1921 the total British imports of bacon were 636 million pounds. They went up by leaps and bounds each year until in 1928 they were but a little short of a billion pounds—an increase in the eight years of over 55 per cent. In that period the Canadian share of the total trade had slipped back from 14 per cent. to 2½ per cent.

It is noteworthy that though there have been increases in the lower price qualities of bacon from Russia, Poland, and the Baltic, with frozen pork from New Zealand and Argentina, the main increase in the British trade has been in the higher priced qualities of Wiltshires from Denmark, Sweden and Holland, the first two running a little above Canadian and the Dutch a little below. Looked at from the national income point of view the loss to Canada of this great trade is important. The British consuming public has year by year paid out, in wholesale prices, enormous sums for imported bacon, of which Canada's share is far below the possibilities of production.

Protective Charms

Collection On Exhibition In London, England, Is Extraordinary

An extraordinary array of charms for curing illnesses have been collected by Mr. E. Lovett, of the Folk Lore Society, and exhibited at the Southwark Museum. Among them is the skin of a cat brought to London by a Belgian refugee as a safeguard against catching cold. Potatoes, which, carried in the pocket, are supposed to ward off rheumatism, and strings of lucky beads worn by children during the war to protect them against air-raids, are also features of the exhibition. One woman who came to look at the exhibition, had two acoons hung at the end of ribbon. Whenever she had a pain, she explained, she would tie the ribbon so that the acoons lay against the parts affected.

It is estimated that one out of every 34 automobiles in the United States has an accident at some time during the year.

Street Accidents In London

Records Show Three Persons Killed and 127 Injured Daily For First Three Months

Official papers show that on each day for the first quarter of this year three persons were killed and 127 injured in London, England, alone. Last year's totals of killed and injured in London, were 1,383 and 36,321. For the whole of Great Britain there were 6,696 killed and 190,817 injured. During the two and a half years of the South African war the total British loss in killed was 5,774. In the same period, on the figures given above, Great Britain may expect to lose 16,740 lives in street accidents.

A Boy's Makeup

Just what little boys are made of has been answered by Sir Arthur Yapp, secretary of the National Y.M.C.A. Council. The makeup is: Mischief, 5 per cent.; pride, 5 per cent.; courage, 10 per cent.; love of truth, 10 per cent.; fear of what others may think, 10 per cent.; selfishness, self-will, and self-indulgence, 25 per cent.; push and go, 25 per cent.

Prince and President

This photograph, sent by radio from Clydebank to this continent, shows His Royal Highness the Prince of Wales, accompanied by E. W. Beatty, chairman and president of the Canadian Pacific Railway, inspecting the mighty 'Empress of Britain,' ace of Canadian liners, just before she was launched. This 42,000-ton vessel, largest steamship in intra-Europe trade will be placed in service between Quebec, Cherbourg and Southampton in the early summer of 1931.

New Classification

For Corn Exhibits

Five Groups Instead Of Four As Announced For Grain Show

The executive of the World's Grain Exhibition is recommending that conventions of other bodies to be held about the same dates in 1932, should arrange in advance so that there will be no conflict and as little congestion as possible.

H. H. Newman, Dominion cerealist, reported on a new classification for corn exhibits which recognizes five distinct groups instead of four as formerly as follows: Dent varieties requiring less than 110 days to mature, varieties requiring more than 110 days but less than 130 days to mature, and varieties requiring more than 130 days to mature; and Flint varieties requiring less than 110 days to mature. Total prize money remains unaltered, namely \$19,000 for all classes.

Civilization To Blame

Demand For Rapid Growth Made

The pig should worry if a neat civilization becomes self-conscious about him.

He has proof that it was civilization that made him piggish. The agricultural research center at the State College, St. Paul, Minn., stands ready to testify that the reason the hog "hogs" his food—five times as much as ordinarily would be necessary for him—is that the demands of civilized man, his keeper, for rapid growth in the porcine carcasses are the cause of his overgrown appetite.

E. F. Furze, swine specialist, says that in their natural state hogs grow at only about one-fifth the rate maintained by good swine raisers.

The Indian Government has curtailed orders for government railways.

A pedestrian is a man whose son is home from college.

Not Cold In Alaska

Average Low Temperature Two Degrees Higher Than In New York

The lowest temperature recorded at Sitka, Alaska, during the past one hundred years is four degrees below zero. The lowest reported in New York is six below.

Weather bureau records for 1927 advise that there were only ten days during the winter when the temperature at Sitka registered more than 32 degrees—while the lowest temperature for the year was 12 degrees.

Now, this isn't printed so that our readers will move to Sitka. But it does show that we all need to unlearn something about this section of the world.

Winnipeg Newspaper Union

(By Annabelle Worthington.)

A daffodil yellow and white printed dainty with crisp white organdie caplet collar and yellow grosgrain ribbon tie, that is very French.

The full-gathered skirt emphasizes the normal waistline of the little basque bodice. The scalloped hem of skirt may be picot-edged or finished with bias binding.

Style No. 3376 comes in sizes 2, 4 and 6 years. It takes but 1½ yards of 35-inch material with ¾ yard of 20-inch contrasting and 1½ yards of 2-inch ribbon for the 4-year old.

For parties, it is adorable made of pink tulle. Band scallops of collar and skirt with bias fold of the tulle. Choose turquoise blue grosgrain ribbon for tie.

Orchid and white gingham check is very quaint and pretty with white pique collar.

Sile green organdie, pale blue linen and tub silk in sprigged pattern in pink tones are darling combinations.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

W.T. Lucas Gave Address Here on Federal Matters

(From The Viking News)

A public meeting on behalf of the U. F. A. candidate in the federal election was held in the Elks hall on Monday evening. Mr. Lucas, the member in the last parliament and Mr. Andrews, member for Sedgewick provincial constituency addressed the gathering.

Mr. Andrews in his opening remarks thanked the electors for the support given him in the recent election and spoke on behalf of the federal candidate, Mr. Lucas. He stated that during the past nine years more progressive and beneficial legislation has been put on the statute books than ever before. The tone of the debates in the federal house had been raised and altogether as a whole the past nine sessions had been of much value to Canada.

When commencing his address, Mr. Lucas, made a plea for co-operation and recounted the activities of big business in the world of commerce, such as chain stores, mergers of banks, and co-operative organizations of various kinds.

He spoke of the importance of the imperial conference to be held this fall.

He deplored the fact that all governments called elections to suit their own convenience, and thought this should be changed.

Mr. Lucas reviewed some of the important legislation passed, such as war veterans benefits, divorce bill, return of the natural resources to the provinces, the budget, New Zealand treaty and its abrogation, appointment of new grain commission, unemployment, Crow's Nest Pass agreement, coal rates, the budget, old age pension act, immigration, and work of special committees and commissions. Unemployment was a world problem and all countries were feeling the effects of this mechanized age when machinery was displacing men in all lines of industry.

He also told of the efforts of the Progressives in bringing in recommendations for legislation such as building a national highway, government support of technical education, a bill to bring estimates before a special committee before being adopted by the house, increased health measures, intermediate credits for farmers, and the establishment of an international chair for peace in each university, a motion to spend at least \$1.00 for a movement towards peace for every \$100.00 spent for war, some of which had received the approval of the government and some not.

Woman had now received the same rights as a man and the first lady had been appointed to the senate by the federal government.

Beneficial legislation to the farmers such as the technical and scientific work being carried on by the department of agriculture was brought to the attention of the audience.

Altogether his address was well received and he was given a respectful hearing.

Several questions were asked before the meeting closed with the singing of the national anthem.

NORSEMEN OF CANADA

MEET CAMROSE, JULY 29th

The Norsemen of Canada will meet at Camrose, Tuesday, July 29th to celebrate Norway's 900th anniversary as a Christian nation. Rev. Nels Carlson, local pastor, opens the celebration with divine services at 10:30, after which the congregation will march from the church to the auditorium under the leadership of the Scandia band. Here addresses of a patriotic nature will be delivered by Rev. A. H. Solheim of Calgary and Rt. Rev. J. J. Akre of Winnipeg, president of the Canadian District of the Norwegian Lutheran Church of America.

An evening session, with address by Prof. Chester Ronning, will close the festivities of the day.

HIGH LIFE IN ST. PAUL

In any city girls found loitering in cafes after 12 p.m., without proper escorts on the streets, or stalling in cars with boys are brought up before magistrate as common vagrants.

The police of the town give fair warning to all such girls in St. Paul that if that are found parking with or without boys they will be arrested. If the girls stayed off the streets, so would the boys.—St. Paul de Meis Journal.

There was a young lady named Astor,
Whose clothes fitted her like plaster,
When she happened to sneeze,
She felt a cold breeze,
And knew she had met with disaster.

VIKING

At a meeting of the directors of the Viking and Birch Lake district agricultural society held in the secretary's office on Saturday evening it was decided not to hold a fair this year. This decision was arrived at after a considerable discussion pro and con, but on account of the financial condition of the district as a whole, and the fact that the society was in debt to the amount of about \$350.00, it was thought advisable to call off the fair for this year, and concentrate all efforts in holding a fair in 1931.

In order to wipe off the deficit the society now finds itself burdened with it decided to hold a series of barn dances in the district.

The committee in charge of the dance at Steve Swift's barn will be Redge Gilpin, Geo. A. Loades, Steve Swift, Tom Swift, F. Cottrell and W. H. Currie.

The committee for the dance in Wm. Taylor's barn are F. Rozmahel, Geo. A. Loades, L. Loades, Wm. Taylor and P. A. Main.

Arrangements for the dance at the Powell barn were left in the hands of the president, Geo. A. Loades.

The flates for these dances have not been fixed as we go to press, but the public should be on the lookout and support these affairs as much as possible. The charge set is \$1.00 per couple.

At Lee's Hall, Kinelsa, last Thursday evening, a large crowd turned out to the meeting addressed by D. R. McIvor, Liberal candidate in the Camrose federal riding. He was assisted by Messrs. J. G. Dobry, C. G. Purvis & H. G. Thunell. The splendid record of the MacKenzie King government during the past nine years was presented. Several of the measures such as old age pensions, war veterans pensions, amendments to the soldier settler act, the budget, immigration, trade agreements, etc., were reviewed. A very respectful hearing was given the candidate who made a fine impression with his straightforward talk. The time and place of other meetings in this part of the constituency will be announced soon.

A memorial service was held under the auspices of the local Elks lodge in the cemetery last Sunday afternoon. Graves of departed brethren and friends were decorated with flowers after which a very impressive service was conducted by Mr. Francis, who delivered a real inspiring message of hope and joy, peace and salvation. There was a small attendance which was to be regretted at an affair of this kind which effects the whole community.

Mr. and Mrs. Luross and family are leaving this week for Indian Head, Sask., where they will make their future home. Mr. Luross, who has been district superintendent for the Security Elevator with headquarters at this point, has been a resident here for the past five years. He recently received the appointment as district superintendent with headquarters at Indian Head which is in the nature of a promotion. This community loses a very excellent citizen and family, but we join in wishing them continued success in their new home.

Mrs. Gosman is leaving tonight for Auburn, Washington, where she will spend the summer months at the home of her daughter, Mrs. Ed. Kirsch and family, formerly of this district.

Miss Beattie, former matron at the local hospital, is spending a couple of months in Nova Scotia before returning to take her position at the Drumheller hospital.

CONSERVATIVES OF CAMROSE RIDING DID NOT NOMINATE CANDIDATE

The convention called by the Conservative Association of Camrose federal riding to be held at Forestburg last Friday afternoon was called off and no candidate will be placed in the field for this election, we are informed. This leaves a straight contest between Mr. McIvor, the Liberal candidate, and Mr. Lucas, the U. F. A. nominee.

REWARD

TWENTY-FIVE DOLLARS

The above sum will be paid to any person delivering the following horses to R. Allison, N.W. quarter 8-46-4, or the Hudson's Bay Company Office, Vermilion.

1 Light Grey Gelding with legs darker grey;
1 Bay Gelding, white blaze and two white feet.

Both branded HB half diamond number on left hip. Weight about 1400 pounds. 33-4c.

If you have something valuable that you don't want and somebody else can use it, an ad. in this paper will sell it for you. Try it.

THE RECORD OF TAX REDUCTION AT A GLANCE

The Income Tax

1922—Exemption for each child raised from \$200 to \$300.

1924—Additional exemption for each child raised from \$300 to \$500.

1926—Tax reduced from 4 per cent to 2 per cent for those with incomes of \$5,000 or less.

Corporation, income tax reduced from 10 per cent to 9 per cent.

Exemption limit raised from \$2,000 to \$3,000 in the case of married persons or those with dependents and from \$1,000 to \$1,500 in the case of other persons.

1927—10 per cent reduction in the 1926 rates.

1928—Additional 10 per cent cut off the 1928.

Corporation income tax reduced to 8 per cent on incomes in excess of \$2,000.

1930—Exemption from income tax for bona fide co-operative companies and associations.

Government or other like annuities are to be exempt from income tax to the extent of five thousand dollars.

The Sales Tax

1922—A flat 6 per cent;

1924—Reduced to 5 per cent; many articles of food exempted, but rates reduced to 2 1/2 per cent;

boots and shoes pay 2 1/2 per cent.

1927—Reduced to 4 percent.

1928—Reduced to 3 percent.

1929—Reduced to 2 percent.

1930—Reduced to 1 percent.

Postage Reduction.

1926—Letter postage in Canada reduced from 3 cents to 2 cents.

1928—Penny postage re-established from Canada to other parts of the British Empire.

Cheque Tax

1922—Imposed at 2 cents on every \$50.00 with a maximum of \$2.00 on \$5,000 or over.

1923—Maximum reduced to \$1.00.

1925—Tax on cheques not exceeding \$5.00 remitted.

1927—Tax reduced to a flat 2 cents on cheques of over \$10.00.

Receipt Tax

Imposed in 1922; abolished in 1926.

Miscellaneous

The transportation tax, a levy on railway and steamship tickets was taken off in 1929.

The tax of one per cent on insurance premiums on instruments of life and marine was taken off in 1929.

The three cent tax on telegrams and cablegrams was taken off in 1929.

Tariff Duties Reduced

Do you know that the Liberal Government has lowered or removed the tariff duties on many commodities you use every day? Here is a brief summary.

1922—Reduction on sugar, agricultural implements, textiles, boots & shoes, etc.

1923—Tariff on goods imported under the British preferential tariff reduced by 10 percent, wherever regular rate of duty exceeds 15 percent and where goods are imported directly to a sea or river port in Canada.

Duty reduced on sugar.

1924—Duty on instruments of production used in agriculture, mining, forestry, and fisheries reduced.

1925—Reduction on well-drilling machinery and engines for fishermen's boats.

1926—Duties on automobiles reduced, leading to immediate and substantial reduction in prices to Canadian purchasers.

Duties on sugar, tin plate, etc., reduced.

1928—Further reductions on implements of production in mining and fishing industries, and fertilizers placed on free list. Also revision of textiles tariff providing for a reduction of the maximum duty under the General Tariff from 37 1/2 per cent to 30 percent with a single exception.

1930—Tea made free under British preference, thus effecting a reduction in price of tea to the consumer of from 10 to 15 cents per lb. Porcelain and Chinaware free of duty under the British Preference.

British Preference extended in many products of the iron and steel industry.

Fresh vegetables and fruits made free under British Preference.

Remember that Reductions in Duties Mean Reductions in Prices.

Lowered duties result in decreased prices, with the national treasury—and NOT wholesalers and retailers—absorbing whatever revenue loss such reductions involve.

WANTED

There are in our locality some distressed families who would be very grateful for left off clothes, shoes, etc. If there are any who can supply this need will they be kind enough to take them to Mrs. Cole, (town), and they will be delivered.

Popular Play "Pollyanna" Coming to Canadian Chautauqua

SCENE FROM "POLLYANNA"

One of the most inspiring plays ever written is "Pollyanna," which comes to the Canadian Chautauqua here this season. Based on Eleanor Porter's famous novel by the same name, this captivating comedy-drama possesses a certain whimsical charm that reminds one of Barrie's beautiful plays. A well-known critic says: "Pollyanna" is one of those rare plays which are likely to become institutions of the stage like "Peter Pan."

"Pollyanna" abounds in fun and humor. There is not a dull moment in the four acts through which the lovable little heroine pursues her way, spreading her philosophy of gladness and winning the hearts of all whom she meets. It will be presented here by the Martin Erwin Players of Canada.

Irma Chautauqua, July 29-30-31-August 1st

NEWS ITEMS FROM KINSELLA

A very successful dance was held in the Lake Vernon schoolhouse on Friday last. Satisfactory music was supplied and the evening was a well success. A novelty dance will be held in the same school on Friday, July 18th.

A community picnic for Kinsella and district will be held on July 23rd. The place is not just definitely decided on but it is likely that it will be held somewhere along the south end of Lake Hatty. There'll be three ball games played and the usual run of races, and we understand followed by a big dance in Kinsella in the evening, in Overbo's hall. Those interested in horse shoes should bring old Dobbin's shoes along with them. It will be a gala day, so let's go.

Last Friday night a very severe electrical storm visited this district causing considerable damage in various parts of the district. A horse belonging to J. Overbo was struck by lightning and severely injured.

At a recent meeting of the rate-payers and trustees of the Lake Vernon School District, two new members were appointed to look after the social activities for the district in the persons of Fred Waltz and S. F. Culm. I. Johanson who has been serving the district in this capacity in the past, kindly consented to continue a while longer.

A public meeting in the interests of the Liberal Candidate, D. R. McIvor, of Stettler was held here last Friday evening, when addresses were delivered before a good sized audience by Messrs. Thunell and Purvis of Viking, and the Candidate, Mr. McIvor. The ground was fairly well covered by the different speakers and Mr. McIvor dealt in a fairly exhaustive and satisfactory manner with the contents of the Dunning Budget as it effects the trade relations between Canada, the United States and Great Britain and Australia, with particular reference to the Grain Produce and Dairy industries.

KINSELLA

Miss Kathleen Ferries is spending a few days in Edmonton.

Mr. John Beschell returned from Stettler on Thursday.

Mrs. D. Corbett returned from her trip to the coast on Wednesday last.

Mr. and Mrs. P. E. Jones and daughter called at R. Eaton's on Sunday evening.

Mr. and Mrs. E. C. Williams and family spent part of Monday at Viking.

Mr. Hogan Land spent Sunday with friends at Viking.

Mr. Taylor and son of Wainwright have arrived to do the plastering and to stucco the house for Mr. P. J. Wangness.

Mrs. Unilowski was taken suddenly ill on Sunday morning and was taken to the Viking hospital.

Miss Ellen Neal returned home on Sunday from Vermilion where she has been visiting her grandparents.

This vicinity is getting lots of rain lately and on Friday last some hail fell here, but no damage was done in town.

Mr. Peterson of Loughheed was here last week, and wired Mr. P. J. Wangness house, and he also erected a wind mill for him. Mrs. Peterson and family spent Saturday afternoon here.

A few from here attended the funeral of Mrs. Snyder at Jarrow on Wednesday last.

NEWS ITEMS FROM JARROW

Miss Mary Jamieson who has been teaching school, near Ponoka, is spending the holidays with her parents here.

Mr. and Mrs. Boyd of Holden spent Sunday the guests of Mr. and Mrs. W. M. Boyd.

Mr. Guy Miller of Star, spent a few days in town. Mrs. Miller and family who have been here for several months accompanied him to Gadsby where they will visit before moving to Star, where Mr. Miller has charge of the U. G. G. Elevator.

Mr. Gordon Bell and Earl Fahner, of Chauvin spent Sunday at Mr. and Mrs. Luxton's.

Mr. Adolph Lovig, of Talmadge, Sask., is visiting his parents south of town.

Mr. H. Spencer, U.F.A. candidate for the federal election held a meeting in the hall on Monday evening. Not a very large crowd attended but the roads were very bad. Mr. Morrison, the Conservative candidate will speak Monday afternoon, July 14th.

The United Church was crowded on Thursday evening at the induction service for Rev. T. Taylor. Kinsella and Batta were well represented and a most enjoyable program was given. Rev. J. Bainbridge of Viking, and Rev. McPherson of Holden, officiated at the induction and both gave very interesting talks during the program.

Miss Thelma Miller and Miss Kjarne of Kinsella, sang a duet, as did Mrs. Wain and Mrs. Reitan, also Raymond Lissan and Elvin Christensen. These were all thoroughly enjoyed. Also a solo by Miss Parker. Refreshment were served at the close of the program and a social hour followed in getting acquainted with Mr. and Mrs. Taylor and family.

Mr. David Long left Thursday evening on the Confederation for Montreal where he will sail for England on July 11th.

Mrs. Manners and two boys who have spent the past year here will move to Wainwright this week. Mr. Manners is manager of the Safeways store of that town.

Miss K. McGregor of Viking spent a few days last week at her home here.

Mr. J. Miller has been appointed Commissioner of Oaths for this town. Miss Bernice Tweedy, Margaret O'Neill and Jenny James spent a few days in Vermilion last week as celebrates to the School of Agriculture.

Jean Matthews has returned home after visiting a week with relatives south of town.

Mr. and Mrs. E. Williams and family, station agent here, is holidaying for a month.

PUBLIC NOTICE

Public notice is hereby given that there has been introduced in the Council of the Municipal District of Kinsella No. 424 a by-law as follows:

"All domestic animals are hereby prohibited from running at large at all times within that portion of the Municipal District of Kinsella No. 424 more particularly described as follows: Township 46, Ranges 10, 11 and 12, West of 4th.

Notwithstanding anything contained in any by-law of the Municipal District of Kinsella, domestic animals, the property of resident owners in the above described portion of the said Municipal District to the number of 25 per 160 acres of land owned within the above portion of the said M. D. by said resident owners or in proportion thereof shall be permitted to run at large or to graze within the above described portion of the said M. D. By-Law No. 15 of said M. D. in so far as it concerns the above described portions of the said M. D. is hereby repealed.

And further that unless within thirty days from the publication of this notice at least forty resident electors of the Municipality petition the Council to submit such by-law to the vote of the resident electors of the portion of the M. D. affected, the Council will proceed to pass the same.

Copies of this by-law may be seen at each of the following places:

Kinsella, Jarrow, and two copies in conspicuous places in each division concerned.

BLAKE H. GREEN,

Secretary-Treasurer.

M. D. of Kinsella No. 424.

NEW TYPE MOTORCYCLE

Ottawa, June 30th.—A new type of motorcycle said to be the "missing link" between the motorcycle and bicycle, will shortly appear on the Canadian Market; dispatches from the England indicate. The machine, weighing only 167 pounds, will retail in England, fully equipped at \$121. It will be slightly higher in Canada.

The Domestic Animals Act (Mun.)

SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that —

One Stallion, 2 years old, color, Blue Grey, white stripe on face, was impounded in the pound kept by Robert Tod, located on S.E. 28-48-8-4th on Saturday, the 31st day of May, A.D. 1930, and the said animal was sold on the 31st day of June, 1930, to S. Hinton, of Saltau.

One Stallion, 2 years old, Buckskin, white face, both hind legs white, was impounded in the pound kept by Robert Tod, located on S.E. of Sec 28-48-8-4th, on Saturday, the 31st day of May, A. D. 1930, and that the said animal was sold on the 11th day of June, 1930, to S. Hinton, of Saltau.

One Stallion, 2 years old, color, Blue Grey, right hind foot white, was impounded in the pound kept by Robert Tod, located on the S. E. of Sec. 28-48-8-4th on Wednesday the 18th day of June, A.D. 1930, and that the said animal was sold on the 30th day of June 1930, to H. Ensland, of Eltham.

— and that said animals may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

ARTHUR CURTIS, Sec'y-Treas. of the Municipality of Buffalo Coulee, No. 453, Post Office, Saltau.

MUNICIPAL HAIL INSURANCE

Under the Municipal Hail Insurance Board Alberta is divided into seven classes, with a graduated system of percentage taxation.

Municipal District No. 424 is in Class F, which is the lowest class of all, and of course pays the lowest rate, the rate for 1929 was 5 per cent and there does not seem any likelihood of it being any higher for 1930. Class F has never been higher than 5 per cent.

Remember you do not pay the tax until Fall. If you have not got the necessary application forms, write me, phone me, or call on me, and we will fix it up right away, and your crop will be insured the moment the application form reaches Calgary.

BLAKE H. GREEN, Sec.-Treas. M. D. of Kinsella, No. 424 Sedgewick, Phone 1004 3t.

WORLD HAPPENINGS BRIEFLY TOLD

Three hundred and fifty Canadian pilgrims headed by Cardinal Rouleau of Quebec, were received in audience recently by Pope Pius.

A permit to develop an area of 5,120 acres of bituminous sands in Alberta has been granted to Walter P. Hinton, Toronto, according to the current issues of the Canada Gazette.

The recently signed parcel post agreement between Cuba and Canada is expected to be a precursor to a complete commercial treaty between the two nations.

The French military tribunal has been dissolved and the possession of buildings, including the military prison, handed over to the German authorities.

J. G. A. Creighton, C.M.G., K.C., law clerk of the Senate, dropped dead in the Rideau Club, Ottawa. He was 50. He had occupied his post 48 years, and had also been parliamentary counsel of the Senate since 1909.

On June 27, the King and Queen of Iceland and Denmark, assisted by the Icelandic cabinet, received Canadians and Americans of Icelandic descent, at the foot of the famous Rock of Lays, in Thingvallir Plain.

Two hundred members of the Sons of Freedom, Doukhobor sect, passed peacefully through Nelson, on their way from Porto Rico, B.C., their home for the past year, to join the main Doukhobor settlement at Brilliant.

Announcement has been made that the Canadian Holstein Friesian Association will this year pay out \$15,000 in prize money to breeder-exhibitors of Holstein cattle in addition to the amounts paid out by fair boards throughout the Dominion.

The third No. 4 Canadian General Hospital Scholarship of \$250 in the faculty of medicine at the University of Toronto, has been awarded to D. W. Johnston, Regina, Sask. It is a war memorial scholarship given by the Alumni Federation of the University.

High In Mental Ability

George Bernard Shaw Brainiest Man In England According To Vote Taken

George Bernard Shaw, according to readers of The Spectator, the well-known London weekly review, possesses the best brains in the country. The Spectator is a journal circulating among the more thoughtful class of people whose opinions in regard to mental ability are worth considering.

The result of the recent vote is interesting in many ways. Here are the leading men in their "order of merit": Bernard Shaw, 214; Sir Oliver Lodge, 183; Lord Bickenhead, 162; Winston Churchill, 95; Dean Grey, 91; H. G. Wells, 86; Lord Melchett, 62; Lloyd George, 50; Phillip Snowden, 48; Sir John Simon, 45.

The present prime minister does not receive a vote and Mr. Baldwin gets but 13. The Archbishop of Canterbury, Dr. Lang, finds no place but the Archbishop of York (Dr. Tappin), with 32 votes follows closely upon the heels of Lord Reading, who obtained 35. Sir James Barrie is "placed" by 15 voters and follows G. K. Chesterton's 17.

Bred In Western Canada

A great majority of the people have the mistaken idea that the wild duck supply comes from remote northern fastnesses. Most of the ducks ordinarily hunted for game, except the black duck and perhaps the green-winged teal, to a certain extent, are western in their breeding range. The canvas-backs, red-heads, mallards and scaups, which are shot in Ontario and Quebec in the open season, are bred in Western Canada.

"Don't forget that when you have bought the car you still have the petrol to pay for," says a writer. It's the spirit of the thing that counts.

In Hollywood

"Do you see that gentleman? He's the nicest man I was ever married to."—Lustige Saches, Leipzig.

W. A. U. 1845

Experiment a Total Loss

Giant Tube To Convert Gulf Stream To Electrical Energy Collapses

A giant tube built at a cost of more than \$1,000,000 and designed to harness the waters of the Gulf Stream to convert them into electrical energy, collapsed when sunk into the sea near Matanzas, Cuba, and was destroyed.

The tube was designed by Georges Claude, French scientist. It was built of corrugated steel, was 1,800 meters long and required "three months to build."

The plan was to place the great tube in a channel on the bottom of the sea to serve as a pipe line from the Gulf Stream to a power plant erected at Professor Claude's laboratory along the golf shore, near Matanzas. Professor Claude's theory was that the Gulf Stream water, being subjected to vacuum would rise to the boiling point and produce steam sufficient to turn great turbines for generating electrical power.

Beauty and Usefulness

No Reason Why Everyday Things Should Not Be Attractive

The consumer has cause to rejoice over the reversion of beauty to usefulness. Where else if not in the home should such a movement exert its most beneficial influence? There is no reason why beauty, like charity, should not begin at home; why the lamp in the boudoir, the gas range in the kitchen, the ash tray in the library, the automobile in the garage should not be designed and colored by the best artists industry can afford to employ.

This flight into the realm of art which modern business has taken is more than a profitable sales appeal. It is a cultural force that, if not dissipated in a straining toward extremes, may eventually help to raise the level of popular taste.

(By Annabelle Worthington.)

The feminine influence is apparent in a printed crepe silk with flared cap sleeves and bow neckline. It is the smart moulded silhouette with belted natural waistline. The back is slim and straight.

Circular flared front of skirt provides interesting fullness. Style No. 3473 comes in sizes 16, 18, 20, 22, 24, 26, 28, 30 and 32 inches bust.

It's an excellent model for the attractive summer cottons as printed dainty, pique prints, unbordered batiste and printed voile.

Flat silk crepe in skyark blue, dusty-pink shantung, coral-red linen and candy striped silk shirting are attractive selections.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Monster Inter-Provincial Picnic

Will Celebrate Linking of Manitoba and Saskatchewan Highways At Gateway On Labor Day

Arrangements are rapidly being pushed forward for the monster Inter-Provincial Picnic, on Labor Day, on the Manitoba-Saskatchewan boundary west of Roblin. An enthusiastic meeting of the representatives of various communities in Manitoba and Saskatchewan sponsoring this celebration met recently at Roblin, and spent a busy afternoon discussing different items in connection with the picnic. The general chairman of the Association, Art Stelek, of Dauphin, kept the legs working hard on their various problems. A welcome visitor on the occasion was "Ace" Emmett, of the Manitoba Motor League, who, in his enthusiasm for anything which makes for development of tourist traffic and good roads, made a special solo trip from Winnipeg to attend the meeting. Following the business session, and spurred by the enthusiasm of H. J. Howley, the energetic chairman of the grounds committee of the Manitoba section, the meeting adjourned to the picnic grounds in the beautiful Assiniboine Valley, eight miles west of Roblin to view the site chosen for the picnic. At this point Manitoba Scenic Highway No. 5 joins Saskatchewan Highway No. 10. All were delighted with the wonderful natural amphitheatre and picnic grounds available through the courtesy of the owner "Bill" Thompson, an old timer of the Roblin district.

At the site chosen for the picnic, which will be of the basket variety, there is a beautiful level meadow bordered by low lying bushes and with the Assiniboine River on the western limit. Rising from the meadow which is on the floor of the Assiniboine Valley, at that point about a mile wide, there is a natural bowl amphitheatre formed out of the banks of the valley, practically free of trees, and ideally suited for accommodating thousands of spectators. A platform can be erected at the base of the hills and speakers can be seen and heard by thousands with comfort. The festivities are slated to start at 11 a.m., when the lands from points in Manitoba and Saskatchewan will be presenting a musical programme until the noon hour. Picnic basket lunch will take about one hour, to be followed by a symbolic ceremony to indicate the linking up of the good road highway systems of Manitoba and Saskatchewan at that point. Honorable W. R. Clubb, Manitoba Minister of Public Works and Honorable A. C. Stewart, Minister of Highways for Saskatchewan, are expected to function as the chief participants in this symbolic ceremony. Governor Christianson of Minnesota and, possibly Governor Sorenson, of North Dakota, are expected to be on hand to give the occasion a friendly international flavor. There will be picnic games, a Buffalo barbecue, where a thousand heads will be broiled if necessary, a sudden death basketball tournament between all star Manitoba and Saskatchewan teams, championship horseshoe pitching contest, children's sports, and many other diversions, entertainments and attractions. Altogether it is freely conceded that a very pleasant time will be had on this occasion. Hot water and hot dogs will be available on the grounds. And the world is invited to attend.

Many will ask what is this all about? The aims and objects of the Inter-Provincial Association, which is the body set up to handle this picnic, is stated in its literature to be "Organized by communities and public bodies of Manitoba and Saskatchewan to celebrate in the form of an Inter-Provincial Picnic, on Labor Day, September 1st, 1930, at the Manitoba-Saskatchewan boundary in the Assiniboine River Valley at the junction, near Roblin, Manitoba, of Scenic Highway No. 5, with Saskatchewan Highway No. 10, the completion and linking of all weather roadway systems of Manitoba and Saskatchewan at that point." While the basis of the appeal to the public and especially the motorists to come and celebrate is largely from the standpoint of well founded publicity, there is a strong sentimental urge behind the proposal. To those who have watched the development of transportation of people and things through the Prairie Provinces from the old Red River ox cart to the present day motor car and motor bus, must come the realization that we in Western Canada stand in the bright light of a new day insofar as transportation over our prairies is concerned. The era of motor transportation is upon us and while we rejoice in its coming, we all have many deeply rooted keen attachments for the old order of things. And so the Inter-Provincial Picnic is conceived as a public medium, as a sentimental appeal, and

as a disseminating agent of good will between our Prairie communities and our friends to the south of the U.S.A. border, and as a gathering to evidence the fact that good roads for which we have long struggled have brought distant communities practically to each others door.

Using Small Seadrome

San Francisco Air Ferry Has Float Anchored At End Of Dock

A seadrome, built on the principles of proposed mid-sea landing places for aeroplanes, has been put in service by a San Francisco bay air ferry service. It is 100 feet wide, and declared to be the smallest floating island landing place in the country. Shaped like an inverted saucer, the landing contrivance has a smooth rounded top and beneath its hull is a system of air tanks which may be regulated to control the depth and angle at which the device floats. The artificial island idea is carried out with sand on the inclines to prevent the amphibious from sliding. The sand is cemented into place. The float is anchored at the end of a dock where more than 30 landings a day are made, with a similar number of take-offs.

Build Annex To Elevator

Big Grain Storage Elevator At Fort William To Be Enlarged

Erection of a grain storage annex of 1,000,000 bushels capacity to the Fort William terminal elevator of N. M. Paterson and Company, is announced by Norman M. Paterson, president, at a cost of approximately \$250,000. Construction will start immediately by the Fegles Construction Company, of Minneapolis and Fort William. It will be completed and ready for storage by about October 1. Engineers of the Fegles Company will prepare for construction to begin within a fortnight.

Regina's Population Increases

Population Is Now Estimated To Be Nearly 67,000

Population of greater Regina is now 66,996 according to figures released by the Regina Board of Trade. The figures represent the population of the city on June 1, it was said. This figure shows a growth of 4,515 over the previous, unofficial figure of 62,481 compiled by Henderson's directories and the Regina Board of Trade, reported for June 1, 1929.

Telegraph Lines In Canada

Latest statistics show over 338,000 miles of telegraph lines in Canada; in addition to which six trans-Atlantic cables have their terminus in Canada, five on the Atlantic and one on the Pacific, and handle nearly 8,000,000 cables annually.

To Prove His Belief

A Polar expedition may be launched by Dr. Knud Rasmussen, noted Arctic explorer, to demonstrate his belief that the Eskimos are related to the neolithic man who inhabited the caves of western France and other parts of Europe.

Serum Saves Children

Serum Treatment For Infantile Paralysis Used Successfully

Such tremendous strides have been made in curing infantile paralysis that not one victim in the province of Ontario last year who received serum on the first day of illness, was paralyzed. Neither was there a death among them. These facts are contained in a pamphlet published by the Federal Department of National Health under the supervision of Dr. Helen Macmurchy, chief of the division of child welfare.

Because of the large number of cases of this disease in Canada last year, and particularly in Ontario, the department published the booklet which gives, in clear and understandable language, directions to mothers for taking care of stricken children. Last year there were 834 cases in Canada, of which 558 were in Ontario, and 90 in Quebec. No province was free from cases. There were 70 deaths.

An Expensive "Toy"

Perfect Model Of London's Underground Shows Safety Of System

Perhaps the most expensive "toy" in the world, and one which has certainly filled the hearts of boys of all ages with envy, was put on show at a London underground station, recently. This was a complete model section of the Underground system consisting of a miniature truck, with three beautifully made model trains. The idea of the model is to show those who travel by Underground how the safety system works. As the trains run, they switch on the red signal lights behind them. Then, as they pass from one section to the next, the lights turn to green. So the model shows quite clearly that there can never be two trains on any one section at the same time.

Canadian Bond Sales

Amount Being Invested In Bonds Speaks Well For Prosperity Of Dominion

The first five months of the present calendar year saw Canadian bond sales total \$292,677,277, as compared with \$228,765,012 for the similar period of 1929, and \$210,255,660 for that of 1928. Two thirds of the whole, or \$214,899,277, were purchased in Canada, while the remainder, amounting to \$77,778,000 were bought in the United States.

Good Even If Old

Students of Ottawa University have been served plum jam which had been buried in the scholastic grounds for twenty-seven years, and they liked it. Forty quarts of the preserves were found buried several feet in the earth by excavators, working on the location of the old kitchen destroyed by fire in 1903.

The front pew in the church may lack the required degree of upholstery, but at least there's no wind-chill to take a header through unexpectedly.

Presentations To Iceland

Interesting Ceremony Concluded At Meeting At Thingvellir

A bronze tablet, bearing the likeness of Thomas H. Johnson, at one time minister of public works and later attorney-general of Manitoba, was unveiled, at Thingvellir, by Hon. W. J. Major and officially presented, to Iceland as Manitoba's millennial gift. The tablet, which bears an excellent likeness of the first Iclander to occupy a cabinet position in a Canadian legislature, hangs on the wall of the antechamber in the parliament building. A large number of Canadian Icelanders were in attendance and after Mr. Major's address "O Canada" sounded for the first time in Icelandic legislature halls. The ceremony closed with the Icelandic and British National Anthems. The gift of the United States was officially presented by Senator Burton and Dr. Svelbjorn Johnson.

Arni Eggertson officially presented the resolution passed by the last session of the Canadian parliament, declaring its desire to honor Iceland with a gift which would be most acceptable. The character of the gift will be determined by the recommendation of the Canadian representatives upon their return.

Germany's gift to Iceland on this occasion is complete equipment for a scientific laboratory. For the building, when erected, Sweden presented a library of 800 books; Norway an exchange scholarship fund; Denmark a Copenhagen porcelain vase and bestowed upon the president of Althing the Order of Commander of the Legion of Honor; a bronze bust of Vilhjalmur Stefansson by the Icelandic American sculptress, Nina Saemundsson, was the gift of the Danish women of America.

There were numerous other gifts and countless illuminated addresses in most elaborate bindings. The celebration officially closed after three wonderful days at Thingvellir.

Good Roads Program

Extensive Mileage In The National Parks Being Built This Year

Good roads are being extended to every part of Canada. In the rural districts of every province there is a network of paved or surfaced roads, which not only are of benefit to the motorists, but to the farmers. In the National Parks of Canada, the great playgrounds of the country, maintained by the Canadian Government, there is an extensive mileage of improved roads. The road building programme in these parks this year is a substantial one and the provincial governments are constructing sections to connect the roads in the parks with the principal provincial highways.

Automatic Letter Box

A Berlin post office has been equipped with automatic letter boxes, and when letters posted in them have reached a certain total weight, they are conveyed automatically on a travelling band to the sorting room.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

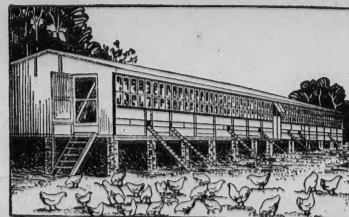

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.
51 Wellington St. W. TORONTO, ONT.

USE WINDOLITE IN BROODER HOUSES, LAYING PENS, DAIRY BARN, SUNROOMS, ETC.

Drowsiness is dangerous.

Wearily miles seem shorter and the day is brightened when you have Wrigley's with you.

Its sugar pep up you, its delicious flavor adds to any enjoyment.

CHAPTER XIX—Continued

Charman nodded, took the scrap of paper and stubby pencil he was holding, and wrote it down.

"I never was much good at remembering addresses," declared the doctor. "Here it is, Annie. Run in quickly, or you'll take cold."

The small girl who had followed him from the house, grasped the paper in her cold hands, and with a shy smile for Charman, scurried away like a half-frightened animal.

"They must be very poor," said Charman as the doctor took his place beside her. "What does that woman want with Jimmy's address?"

"She was thinking: Could it be possible that Jim was still collecting interest, at this distance? The thought hurt incredibly. For the sake of old lang syne and her peace of mind, she wanted to think better of him than that. But how could she if...

she turned to look at the old doctor. He seemed to have read her thoughts as he responded: "There is a verse in the Bible, Charman, that says: 'When thou doest alms, let not thy left hand know what thy right hand doeth.' That describes as well as anything could, I think, Jim Bennett's character. Seeing that he was about the country on the bank's business 'the best man for the job' they've ever had, according to George K., one wouldn't suspect that he was wearing the mantle of the Good Samaritan, now would they?"

"I—I don't seem to understand."

"The doctor smiled at her bewilderment.

"Why should you? If I didn't follow pretty closely on Jim's heels, I wouldn't understand myself. Like as not he'd pound the life out of me for telling; but that doesn't scare me—with the boy three thousand miles away! You see, my dear Jim's father left considerable property. Jim came into his share at twenty-one, and he earns a good salary at the bank. He's well fixed—for Wickfield. No tie his mother, and she's provided for."

The old man paused, while Charman urged impatiently: "Go on, please, Doctor. You're wandering all 'round Robin Hood's barn. You say that Jim is a good Samaritan; but if collecting interest from windows and orphans—"

"Tut! tut!" broke in the doctor quickly. "You go too fast. I think you'll admit that there's a difference in collecting interest from the poor, my child, and paying that interest for them—leading a hand—helping a lame dog over a stile, you know—leaning one's own money with no interest. That's what our Jim's been doing for five years whenever he came across a case deserving help. That woman wanted his address so she could send a Christmas card."

"Oh, no!" cried Charman.

This was the doctor underfoot, not a protest at the Christmas card, but at her own blindness. She had to

set her firm white teeth into her lip in order to keep it steady. "I must have hurt him horribly," she confessed after a tense moment. "I was a fool! I didn't see. I asked if he felt like—like Shyllock!"

There came a silence; then the doctor said: "Yes—that would have hurt."

"He should have told me," cried Charman, grasping at this straw in self-defense.

"How could he—being Jim? You had misjudged him," responded the old man with rugged honesty.

"I shall never, never forgive myself," she declared passionately.

The doctor smiled.

"Perhaps not; but Jim will forgive you, child, if I know him as I think I do. There! Charman, don't be too much disturbed. Just drop the lad a line and say you understand."

"But will he understand?" asked the girl, raising unhappy eyes to her old friend. "I should think he'd despise me."

"Not Jim!" answered the doctor. "Come, child, cheer up. We're almost home, and I don't want Grandma to think that I've been scolding you."

Charman managed a misty smile as she replied: "I deserve worse than a scolding. I—I ought to be—lynched!" And they both laughed as they drew up before the window where Grandma was waiting.

"So you had a ride?" she asked as the girl came in. "Were you warm enough? It's a terribly cold day. The doctor's run in three times from the office to look at the furnace. I wish I was young enough to marry that man, Charman, just to keep him in the family. Some one'll get him."

"Undoubtedly."

Charman smiled, but as she slipped off her coat and sought the register for warmth, her recent conversation on the subject of John Carter came back, and her color deepened.

"Yes, I was warm enough, Grandma, thanks to Doctor Howe's old faithful," as Jim calls that ancient cape. We went to South Wickfield while he made a call."

"Who on?" asked Grandma with ready interest. "The real sick season's just begun."

"The Smithsons. The mother has the gripe, but she's on the mend."

"Poor soul!" murmured Grandma compassionately. "She must have a real hard time making both ends meet. You ought to carry her something good to eat, child, while she's laid up. I don't suppose there's any one to do for her but Edward Howe, though she won't have to worry about her doctor's bill! Sometimes I've wondered how she's managed to keep a roof over her head, left as she was with all those children."

"I'll tell you that," said Charman, and proceeded to divulge Jim's secret. Her voice trembled as she finished, not wishing to spare herself. "And I asked him, Grandma, if he didn't feel like Shyllock! I remembered he answered, 'Why on earth should I?'—and that made me mad. Oh, I think I'm the stupidest girl in the whole world! It does seem, when I've known Jim Bennett all my life, as if I might have understood that he wouldn't be hard-hearted to— to a sick kitten."

She had sunk down on a hassock at Grandma's feet, and the old lady reached out and stroked her hair.

"There, dearie, Jim isn't one to bear a grudge. You just write him a real nice letter and say you're sorry. And that reminds me of something else. Jim was here one day when you were out. He wanted I should make you understand something after he got away; and the only times I've thought of it were when you were at school, or evenings when the doctor was in and I couldn't speak. It was about his mother, and that speaks a string business that's always bothered you. He said he'd tried to explain it to you, but somehow he couldn't get it out, so he came to me. I guess maybe it's easier to talk to old folks. You see, dearie—"

The girl looked up, breathless, as Grandma, finishing Jim's story, said: "It taught me a lesson; but if I forget myself, Charman, and ask any promises of you when my time comes, it'll be because I don't know what I'm doing, and you mustn't feel called upon to keep 'em. James Bennett never meant for Jim to be a slave to his mother the way he has been. I told him so, and I think it made the boy feel happier. Anyhow, he said I did him a slight of good. I've an idea that Jimmy's a lot more sensitive

UNIVERSITY OF MANITOBA

WINNIPEG

Offers, among others, the following Courses:

Through the FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A., and B.Sc., including B.S. (Hons.), and M.Sc. Through the FACULTY OF ENGINEERING AND ARCHITECTURE courses leading to the degrees of B.Sc. (E.), B.Sc. (E.E.), M.Sc., and B.Arch.

Through the FACULTY OF MEDICINE courses leading to the degrees of M.D. and C.M.

Through the FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.S.A. and B.Sc. (Hons.)

Through the FACULTY OF LAW, an affiliated institution, a course leading to the degree of LL.B.

For terms of admission, details of courses and other information, apply to W. J. SPENCE, Registrar, University of Manitoba, Winnipeg.

than folks give him credit for being."

"I—I don't see why he finds it so difficult to talk to me," said Charman, a vague hurt tugging at her heart.

"I do," replied Grandma. "It's for two reasons. One's because he felt you didn't understand him; and the other's because he cares such a heap more for you, dearie, than you've ever cared for him. I declare, Charman, so long as you don't seem to want the boy yourself, I hope he'll meet some real nice girl out in California, and marry her. He'll look different to a girl who hasn't seen him in short pants' days, wading barefoot in Fuller's brook, and his toes tied up afterwards in rags because he's stepped on a broken bottle or something—more romantic maybe."

A reluctant laugh escaped the girl as she arose.

"Well, Grandma, I feel like a criminal; but I suppose we've got to eat. Thank goodness it's been night and everything's ready. You and John will have to wait double Canfield this evening instead of bridge. I've got to write to Jim, or I shan't be able to sleep a wink, I feel," she added, turning as she reached the door, "I feel just about one inch high!"

CHAPTER XX.

What ails our 'Blessed Damozel' these days?"

Grandma and the young doctor were eating their noon-day meal at the kitchen table. Christmas had come and gone, and Wickfield had settled down to the cold, hard, relentless winter months. For three weeks snow had fallen in frequent intervals, freezing almost as soon as it reached the ground, so that the roads and sidewalks were packed. Charman had expressed a wish that, despite the cold, they might stay that way "till the end of the world," as the school was so much easier on the hard snow than through the slush and mud that accompanied warmer days.

He had refused the doctor's offer of a ride, and, feeling vaguely troubled, Grandma had watched her out of sight. Something was wrong.

John Carter's question, therefore, came as a relief, giving her an opportunity to speak her thoughts. Yet she smiled at his manner of putting it, though the young M.D. had addressed her granddaughter in a like manner many times since a day in August when he had driven into the yard to find her leaning from his own bedroom window, the sun making an aureole of her hair. He had stopped the car directly below her, and stared up in admiration as she said:

"You look like the blessed damozel."

"Her eyes were deeper than the depth."

Of waters stiller at even: She had three lilies in her hand, And the stars in her hair were seven."

"Did you do it purposely?"

Charman, still leaning on the window sill, glanced down at the golden lilies in her hand, and answered: "Not guilty. As you perceive, I have had a shampoo. I went into the garden to let the sun lend a hand at the drying, and picked these posies for your bedside table. This accounts for my invasion of your domain; but your imagination is vivid, Doctor John. Where, please, are the seven stars to adorn my hair?"

(To Be Continued.)

Descends to Great Depth

A new deep-sea diving record is claimed for William Beebe, of the New York Zoological Society's oceanographic expedition, who descended 3,000 feet beneath the sea's surface at Hamilton, Bermuda, in a steel ball with fused quartz windows. The lowest depth previously attained was 325 feet. The steel sphere contained an oxygen supply and was fitted with apparatus for absorbing the exhaled air.

The world's population is now estimated at more than two billion, Asia having over half of this total.

One Paris hotel will run an airplane taxi service for its guests.

Minard's Liniment checks Colds at once.

In Class By Herself

University Of Montreal Graduates First Woman Doctor With Honors

The first woman to be enrolled in the faculty of medicine of the University of Montreal, affirmed her primacy by out-distancing all her male conferees, and carrying off the highest honors of her class, when she received her degree as a doctor at the convention. She was literally in a class by herself, since the list was headed "Class A—Miss Martha Pelland, with highest distinction," her name standing alone in this category.

With true chivalry, her class mates gave her a rousing ovation when she was called up to receive her degree.

In the same year as Dr. Pelland began her course in medicine, a friend, Miss Juliette Gauthier, enrolled at the University of Montreal, as a law student. Miss Gauthier, who had an excellent record as a student, received the University degree of LL.D. Although in academic real, they enjoyed equal status, their position now is another story. Dr. Pelland may, and proposes to practice her profession, which she is entitled to do, without restriction, but her confere, Miss Gauthier, will be called to rest on her University laurels until the long battle to have women admitted to the Bar in Quebec, is won.

When eyes feel tired rest them by looking at objects a long way off. Pay special attention to the hygiene of the body.

Up to forty years bathe the eyes twice daily in cold water.

After fifty, bathe them night and morning in very hot water, then with cold water.

Old people should avoid reading much by artificial light, should be careful about diet and late hours.

Muscular Rheumatism Subdued.—When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Germany's Monster Land Plane.—Germany's largest land plane, the G-38, perhaps the monster aeroplane of the world, landed in Paris recently. Eighteen passengers were on the aeroplane, which can carry forty-five.

It is made entirely of metal, has 2,400 horsepower, a wingspread of 150 feet, weighs 24 tons at full load, and can cruise 2,000 miles.

Combs used by the ancient Egyptians were made of bone, ivory or wood.

In Holland there is a river called "U." In China is a city called "U," and in Sweden a town called "M."

Picture of Health Now

"In May and June I was badly run down and had faint spells until it was a drag to do my work. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Gillespie, Punichy, Saskatchewan.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1845

For Young and Old Alike

ENO is so mild it can safely be given to any child, yet it is quite as effective for grown-ups, eliminating from the systems of young and old alike, the clogging waste and poisons which cause intestinal absorption... unsuspected constipation... Refuse substitutes.

ENO'S "FRUIT SALT"

Drifting Bottles

Mariners Trying To Ascertain How Far Bottles May Drift In The Ocean

How far bottles may drift in the ocean is a question for which mariners have recently been trying to obtain a satisfactory answer. Two unusually long drifting records have already been reported to the hydrographic office in Washington. In each case the bottle had travelled nearly one-third the distance around the world, or a little more than 7,000 miles.

One bottle, thrown overboard in the North Atlantic near Europe by an officer of the Norwegian steamer "Childar," was picked up near the Marshall Islands. The second, dropped in the same locality from the American steamship "K. R. Kingsbury," drifted 7,000 miles.

The longest bottle drift in the records of the office was made about twenty years ago. A bottle was thrown into the sea on May 21, 1909, and was picked up again nearly three years later on May 19, 1912, after travelling 11,870 statute miles.

Stands Every Test

No Food Has Been Found To Take Place Of Milk

Milk is the food of all foods for mammals—of whom man is the chief. Further, it is the only food actually designed and evolved by nature to be food for them.

Is, of course, merely lack of knowledge to regard milk as not a food, because it flows as a liquid. In reality, it is solid in the breast and in the stomach; in nature it is only fluid for a second or two of convenient transit from one to the other.

Ordinarily we do not test our foods. Our diet is mixed, and we have a large factor of safety capital on which to draw during time of deficiency. There are four periods, however, during which food may really be tested; growth, athletic exercise, illness, and old age. And no other food can be suggested which remotely approaches milk when tested under these four conditions.

Will Be Preserved

Grave Of Original Of Immortal "Uncle Tom" Discovered By Weed Inspector

The weed-covered monument over the grave at Dresden, Ontario, of Rev. Josiah Hezon, the original of Harriet Beecher Stowe's immortal "Uncle Tom," has been discovered by government weed inspectors. It was stated at the Provincial Department of Highways, Toronto. This relic of the past will be marked in some suitable manner for the benefit of American tourists and students of history.

Rev. Josiah Hezon was born July 5, 1789, and died May 5, 1883, at the age of 93 years 10 months and five days, according to the inscription on the monument.

Metalized Paper

M. U. Schoop, of Zurich, Switzerland, has announced that he has developed paper money which will not burn, tear, or wear out. His process is described as spraying paper pulp with a protective coating of tin, aluminum, or copper. The metalized bank notes are hard-surfaced but are said to be pliable and easily handled.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugist's.

Among the few creatures that may live to be more than a century old, are listed the giant tortoise, the eagle, parrot, raven, the German carp, the white-headed vulture.

Minard's Liniment checks Colds at once.

Little Helps For This Week

"As the body without the spirit is dead, so faith without works is dead also."—James II. 26.

'Tis not the wide phylactery, Nor stubborn fast, nor stated prayers, That make us saints; we judge the tree By what it bears.

And when a man can live apart From works, on theologic trust, I know the blood about his heart Is dry as dust.

—Alice Cary.

The effective life and the receptive life are one. No sweep of the arm that does some work for God but harvests also some more of the truth of God, and sweeps it into the treasury of life.—Phillip Brooks.

Persian Balm—alluring, provocative and charming. Fragrant and refreshing as a cool breeze in summer. Delightful to use. Creates complexions of surpassing loveliness. Makes the skin velvety soft in texture. Soothes and dispels all irritations caused by weather conditions. Softens and whitens the hands. Persian Balm is a perfect toilet requisite for women who care for charm and distinction. Use it for hands and face.

A clock in an observatory at Sydney, Australia, is operated by sunlight.

Pure affection is a sentiment free from any taint of any kind, and is as rare as pure charity.

The first Chinese who studied medicine abroad received his medical degree in Edinburgh in 1854.

TAKE NO CHANCES WITH BABY!

Cook Her Food in the "Health Ware"

Doctors recommend Enameled Ware for cooking baby's food. It is so simple to clean... so easy to keep sanitary and free from germs. It cannot stain. There is no metal surface exposed to the food. Nothing to absorb moisture, flavors nor odors.

Make sure you get McClary Enameled Ware... the Modern "Health Ware". Watch for the familiar McClary label.

New Canadian National Steamer

Above is shown S.S. "Prince Henry," the latest acquisition to the Canadian National fleet on the Pacific Coast. S.S. "Prince Henry" which has arrived at Vancouver is a tribute to the shipbuilding art of British yards. The vessel is 384 feet in length and fitted in the most modern way. The passenger accommodation, designed for the Pacific Coast tourist traffic, is ultra modern with rooms for 324 first class and 70 second class passengers. The vessel will have a Board of Trade license to carry 1500 day passengers. S.S. "Prince Henry" is the first of three new ships which will start service this summer. She will ply between Vancouver and Skagway during the summer months, while her sister ships S.S. "Prince Robert" and S.S. "Prince David" will inaugurate a tri-city run between Vancouver, Victoria and Seattle.

Main Street

Irma Chautauqua, July 29-30-31, and August 1st.

Mr. A. Turnbull left Wednesday for Edmonton where he expects to stay till after the Fair.

Miss Olive Rush has been engaged to teach at the Crescent Hill School for the coming year.

A son arrived at the home of Mr. and Mrs. A. Schon Wednesday, both are doing nicely.

Mrs. McKay, of Wainwright has been visiting with the McKays and Smallwoods south of Irma.

Rena Fenton is spending part of her vacation with Lillian Whitby and Friends in Edmonton.

Mrs. Ralph Dunlop and son Orville are visiting with Mrs. Wm. Dunlop and relatives in Edmonton.

The Irma Ladies Aid met at the home of Mrs. M. D. Askin Thursday afternoon.

Mr. and Mrs. Ross McFarland and family left Monday for a motor trip to Banff and other Southern Alberta points.

Mr. J. A. Barss is able to be around again but his head is still quite sore where he hit it when thrown from a plow a couple of weeks ago.

George King, of Regina, Sask., arrived in Irma last Friday to spend the vacation with his grand parents Mr. and Mrs. W. H. King.

A good crowd turned out for the Roseberry picnic Wednesday afternoon and all report having spent a very pleasant time.

Mr. and Mrs. P. J. Hardy, Mrs. C. T. Hill and Miss McLennan, of Vancouver, motored to Edmonton Wednesday.

There is a big demand for fresh killed, skinned rabbits, Jack or Cotton Tail, for feeding foxes. Just take them to the Chevrolet garage, Irma. Good prices paid.

Mr. Fred Severson left Sedgewick on the 2.40 train Tuesday morning, July 8th, for Great Falls, Montana, to visit his brother Stewart Severson. We wish him a good holiday.

Mrs. A. L. Kilpatrick and children of Detroit, left Saturday for home after spending three months with Mrs. Kilpatrick's brother, Mr. Levett.

Rev. Mr. Geeson and family left Monday for a motor trip through the Southern part of the province and as far as Glacier National Park.

Simmons and Sons have taken over the Cockshutt Agency and expect to carry a full line of repairs and new machinery for this line.

The Ladies Aid are planning a social at the Fenton home for the last of July. Watch for further announcements.

Irma Chautauqua, July 29-30-31, and August 1st.

Mrs. Harry Davis and her boys, are visiting with her parents and Frank and Allan, of Medicine Hat, brothers, the Engers. It is seven years since Mrs. Davis was here before.

Mr. and Mrs. McCallum of Oakland, California, Mr. McCallum of Edmonton, Mr. and Mrs. Huffman of Oakland, left Tuesday after spending some time with Mr. and Mrs. J. H. Elliott.

The Alberta Poultry Pool called a meeting of poultry producers Thursday afternoon, but the Times was not notified of this in time for our last issue so we expect many of our readers will be disappointed in not hearing of it in time.

Word has been received that Mrs. Cole, who visited her daughter, Mrs. (Rev.) Geo. Elliott, at different times in Irma, passed away on May 11th (Mother's Day) after an illness of two weeks at the home of her daughter Mrs. Simpson of Langham, Sask.

Mr. W. Green, of Bow Island, Alta., spent a few days in Irma last week end renewing acquaintances in the Irma district. Mr. Green reports dry weather around Bow Island and crop prospects are far from good. According to Mr. Green crops look better around Irma than in any part he has been.

The chautauqua dates for Irma are July 29th, 30th, and 31st, and August 1st. Keep these dates open for the best chautauqua programs that have ever been heard in this community.

Irma Chautauqua, July 29-30-31, and August 1st.

Have you some piece of machinery, a set of harness, a buggy, or some other farm implement, for which you have no further use; but which might be of value to someone: or do you wish to trade or buy one of the above articles? Use classified ads, they usually get results and are an inexpensive way of buying or selling used articles.

TREE PLANTING CAR COMING

The Tree Planting Car of the Canadian Forestry association will arrive in Irma on Wednesday, July 30th. Equipped to show both slides and moving pictures of all phases of tree planting, also some reels of the beauty spots of Canada. The tour is entirely educational and free.

Coming Here at
the Chautauqua

Henry Black Burns to Give His
Timely Lecture "Where
Criminals Come From"

Dr. Henry Black Burns, noted specialist on criminology who has been secured to speak here at the coming Canadian Chautauqua, discusses one of the most interesting subjects before the public today—the problem of the criminal-minded and the researches that are being made toward discovering a cure for criminal tendencies.

DR. HENRY BLACK BURNS

What is the psychology of a criminal? What makes a man turn a, perhaps, brilliant mentality to the pursuit of activities beyond the law? Is the criminal a man in the clutches of some mental or physical disease—and can he be healed? Is divorce a symptom of some subtle malady in the present-day social system? These are some of the salient points of Doctor Burns' vital lecture "Where Criminals Come From."

Noted judges and lawyers throughout the continent have enthusiastically endorsed the work Doctor Burns is doing in criminal investigation. Civic clubs and educational institutions have called him to their communities time and time again.

Although Doctor Burns deals with facts—with symptoms and causes—he himself so genial and witty that his lecture is intensely entertaining as well as mentally stimulating. Not only is he a recognized authority on criminology, but he is a magazine writer and poet as well and brings a ripe scholarship, a sparkling humor and a warm heart to his lecture work.

PRINCE OF WALES, PREMIER VICTIMS OF CHAIN LETTERS

London, June 21.—The Prince of Wales and Premier MacDonald have been victims of a peculiar form of mania which has afflicted Britain for months past, namely, "Chain letters."

You receive in the mail any day in the week a letter telling you that had luck will over take you unless you make nine copies of the idiotic communication and send them to nine friends. Thousands of crazy people have been induced to comply with this demand, to the obvious benefit of the postal department revenues.

Some chain letter writers, however, not content with this success, proclaimed that the Prince of Wales and Premier MacDonald were among their helpers and it became necessary Friday, for Sir Godfrey Thomas, the prince's equerry, to announce that so far as the Prince was concerned such letters never reached him, but helped to overflow his already bulging wastepaper basket.

SCHEME FOR CANADIANIZING CONTINENTAL EUROPEANS WESTERN CANADA UNDER WAY

Winnipeg.—Following the announcement made recently by Sir Henry Thornton, President of the Canadian National Railways, of the plans developed by the Company to assist in Canadianizing Continental Europeans who are resident in the three Prairie Provinces, J. S. McGowan, Asst. Director of the Department of Agriculture and Colonization of the National System at Montreal, is now visiting members of the Provincial Governments, completing the final arrangement for this year's competitions. Robt. England, Western Manager, Winnipeg, left Winnipeg with Mr. McGowan for Regina and Edmonton.

In Regina, Mr. McGowan will confer with F. H. Auld, Deputy Minister of Agriculture, and A. H. Ball, Deputy Minister of Education, for Saskatchewan, proceeding from there to Edmonton where he will discuss the plans further with J. I. Ross, Deputy Minister of Education, and H. A. Craig, Dep. Minister of Agriculture for Alberta. He will meet members of the Manitoba Government on his return trip.

Fairy Story

Bill Smith had faulty brakes . . . he knew it too! They were always going to be relined "tomorrow" . . . but one day a street car couldn't dodge him . . . Bill is still on the crutches.

Bad brakes have caused more motor accidents than any other one thing.

If you value your safety — your car and the safety of others, you will not neglect your brakes.

Have them relined with Genuine Raybestos . . . as Brake Lining, and then you are confident of quick, sure stops in traffic, on the hills or the open road.
